

dyslexia testing
Testing services for Adults and Children

Learning Disorder assessments including:

- **Dyslexia (reading)**
- **Dyscalculia (maths)**
- **Written expression**

We assess and diagnose **Attention deficit disorder:**

- **Inattentive**
- **Hyperactive/ Impulsive**
- **Combined**

- **Autism Spectrum Disorder**

- **Intellectual disability**

And we can provide preliminary testing for

- **Speech and Language Disorders**
- **Central Auditory Processing difficulties**

Dyslexia assessments are probably one of the most sought after tests. With any assessment, it's important to establish the most accurate diagnosis, and find out why an individual is struggling. Reading difficulties can be symptomatic of other disorders including: auditory and/or visual processing difficulties, attention deficit (ADHD/ADD), speech and language impairment, Intellectual Disability, social and emotional factors, in addition to other considerations. A math disorder is also a recognised learning disorder which can also impact on reading and writing, but can be missed within a standalone dyslexia test. We test to find out what factors have contributed to the learning difficulty, to guide the most appropriate intervention, and support.

Both Packages 1, 2, & 3 assess for all learning disorders, including Dyslexia

Package 1: includes a **full cognitive assessment** which is recognised worldwide. Package one provides comprehensive testing including vocabulary, verbal reasoning, visual spatial processing, fluid reasoning (visual problem solving), memory and processing speed when assessed using the WISC V, WPPSI IV, WAIS IV or Stanford Binet V. The results indicate: how an individual performs in contrast to their age-related peers, if their skills are evenly developed, and identify learning performance strengths and weakness to guide intervention support.

Package 2: includes a **full cognitive assessment** which is recognised worldwide.

Package 3: Includes an abbreviated cognitive assessment: verbal abilities, and nonverbal abilities. Both packages 1 & 2 are designed to identify individual strengths and weakness.

Package 4: Adult work/career assessments – return to work, promotion, employment suitability – customised to suit your needs

Package 5: You will need to provide your previous report conducted by a Psychologist. Suitable for re-assessments and for Institutes requiring an updated diagnosis.

We can usually arrange appointments within two weeks. A \$200 deposit is required at the time of booking. Deposits are non-refundable in the event of a cancellation of less than 7 days' notice. We assess during the weekends, evenings, and during school holidays. Testing is completed within one session (one to one) and takes approximately 2-3 hours. We are based in **Queensland** and we have offices at Hope Island in Helensvale, and Springwood. In **New South Wales**, we have an assessor who covers Sydney, Newcastle, Wollongong, and Canberra, and assesses at your *home. Our Educational Psychologist in **New Zealand** is based in Christchurch, testing *includes home visit (*travel limits may apply).

The reports typically take 9 hours to complete and we aim to finalise the report within 20 working days. The balance of payment is due on the day of assessment. Payment options include: cash, bank transfer, or credit card facilities (cards-1.9% surcharge). If alternative payment options are required, payment plans can be discussed prior to assessment.

Packages	Queensland	New South Wales	New Zealand

- ❖ The cost quoted includes the cost of the report
- ❖ We do not insist on further appointments in addition to the assessment session, which means there are no hidden costs.
- ❖ If a client meets criteria, we will include the diagnosis
- ❖ We go beyond the diagnosis. We identify learning strengths and weakness and try to establish why an individual has a learning difficulty to guide the most appropriate intervention
- ❖ When assessed by a Registered Psychologist in Queensland, part of the cost may be reclaimable through your private health fund. Contact your Insurance company to determine eligibility
